

Why is the East the East and the West the West?

An online class delving into mysteries of ancient astrology, astronomy and geography.

- Ever wonder why Asia is considered 'the East' and the Americas 'the West' - even though the Earth is a globe?
- What is the basis of this orientation that seems to be agreed upon by all?
- Is it an arbitrary decision that was made by someone long ago, or is there a deeper astronomical basis for the way we perceive our planet?

Join Greg Stein, Vedic Astrologer, for a 3-class series uncovering little known mysteries regarding the astrology and astronomy behind this phenomenon. Come away with a profound insight into the cycles of time on our Mother Earth, which will reveal practical methods for promoting greater harmony in life.

Classes will be held via Zoom on Saturdays from 8 to 9AM PT:

~ May 29, 2021 ~ June 5, 2021 ~ June 12, 2021 ~

Tuition for all three classes is \$45

The class recordings will be available for download.

Email Greg at poornamurti108@gmail.com to enroll.

Class limited to 9 participants.
